WELCOME TO THIS GUIDE

For more than 20 years as a Certified Child Life Specialist, I have supported children and families navigating pediatric cancer.

I created this guide to bring trusted resources together in one place and make it easier for families to find support throughout the childhood cancer journey.

Start with what you need most

Resources are organized by topic, including financial help, emotional support, siblings, school, survivorship, grief, and more.

Check eligibility

Programs may vary by diagnosis, age, location, or stage of treatment.

My hope is that this guide helps families feel more supported, informed, and connected.

TABLE OF CONTENTS
